Portfolio

PROFESSIONAL SUMMARY

Top Secret cleared IT professional and MBA candidate transitioning into Business Systems Analysis with proven success supporting IT & Security Business Partner functions in classified defense environments. Experienced in gathering business requirements, engaging cross-functional stakeholders, aligning IT service delivery with operational priorities, and promoting cybersecurity compliance without disrupting mission execution. Background spans BAE Systems and Raytheon test environments, DoD security principles, and project planning. Brings the operational discipline of the U.S. Marine Corps combined with analytical, communication, and systems-integration skills necessary for a Business Systems Analyst role.

WORK EXPERIENCE

Raytheon | RTX, Information Systems Engineer | June 2025 – Present

- **Requirements Gathering:** Gathered and translated complex technical and operational requirements for multiple platforms, ensuring IT changes aligned with production workflows and business goals.
- **Stakeholder Engagement:** Partnered with cross-functional teams (Cyber, Operations, Engineering) to negotiate compliance requirements, enabling secure system deployments while meeting mission timelines.
- **Risk Analysis:** Identified operational risks, dependencies, and readiness gaps, prioritizing tasks and delivering status reporting to leadership on mission impacts.
- **Process Improvement:** Developed Standard Operating Procedures (SOPs) and continuity documentation to eliminate tribal knowledge risk and improve cross-team consistency for service delivery.
- **Governance:** Engaged in formal configuration-control and change-management reviews to maintain the security baseline and operational standards required for classified environments.

BAE Systems | Systems Administrator | May 2023 – June 2025

- **Operational Alignment:** Collaborated with Operations, Engineering, and Cybersecurity to align IT actions with urgent production goals, specifically during high-tempo recovery efforts.
- **Procurement & Lifecycle:** Coordinated lifecycle management for vendor equipment to ensure compliance, audit readiness, and accurate asset tracking for program reporting.
- **Compliance Management:** Ensured closed-area infrastructure compliance with cybersecurity (STIG/NIST), configuration-control, and auditing standards, minimizing impact to business operations.
- **Communication & Reporting:** Authored technical guides and delivered weekly leadership briefings summarizing milestones, risks, and operational impacts to sustainment timelines.
- **Infrastructure Support:** Managed production infrastructure implementations, ensuring alignment with program schedules and operational goals while maintaining configuration documentation and risk logs.

Litchfield School District IT Support Analyst | October 2020 – May 2023

- **Project Delivery:** Delivered infrastructure upgrades and security enhancement projects by coordinating requirements directly with school leadership and staff.
- **User Management:** Administered Active Directory and Google Admin Console for user lifecycle management and access control.
- **Service Delivery:** Provided Tier I/II IT support, communicating with leadership to ensure timely service aligned with operational needs.

Pan Am Railways | Operations Manager/Conductor | November 2007– January 2019

- **Operational Leadership:** Managed daily rail operations, coordinating dispatch and field teams to ensure efficient movement across territory under strict regulatory compliance.
- **Cross-Functional Collaboration:** Collaborated across functions to streamline workflows, improve operational efficiency, and minimize downtime in high-pressure environments.

EDUCATION

Master of Business Administration (MBA) in Project Management | *In Progress*

Bachelor of Science (BS) in Information Technology | *May 2023*

CERTIFICATIONS

- **CompTIA Security+ CE**
- **Lean Six Sigma – White Belt**
- **Project Management Professional (PMP)** – *In Progress*

MILITARY SERVICE

United States Marine Corps | Infantry – Fire Team Leader | June 2003 – June 2007
